

Additional seats for children

SUV • Station Wagon • 4WD

Outgrowing your family car?

Techsafe® third row aftermarket car seats increase the occupant capacity of a wide range of popular SUV and Wagon models. These car seat conversions have been designed to fit with particular makes and models, so they look as though they were always meant to be there. Each seat comes in a trim to match the original interior and can be stowed, side folded or easily removed to allow you to retain boot and cargo space.

LED LIGHT BARS See further on less power!

New improved LED Light Bars allow you to see further and draw less power.

Ironman 4x4 has now developed a new range of LED light bars using the latest technology that has become available. State of the art, high intensity CREE LEDs for maximum possible light spread.

The new design light bars allow you to see further, using less power than before with improved reflectors, that are bigger than previous. The new lights bars are available in straight and curved, with the curved bars allowing maximum spread.

Features:

- 5W High Intensity CREE LED
- 6000k Colour Temperature
- Dual Mounting System
- Shockproof Polycarbonate Lens
- 10/30V DC Operating Voltage
- Integrated Breather
- Integrated Deutsch Connector
- -20°C to +50°C Operating Temp
- IP67, IP69K Waterproof Rated
- Alloy Diecast Housing

The new LED lights bars are now in an all new aluminium extrusion, to keep the lights cool, ensuring maximum LED efficiency. Built with rear and end mounts, allowing the customer to fit it with 2 or 4 mounts. Designed for all off road conditions using the latest breather and have passed the industry leading IP67 and IP69K water and dust proof ratings.

YAKIMA ROOF RACKS Lock n load!

When you want a system you can rely on choose LockN'Load! Designed from the ground up as THE ultimate 4x4, Touring and Commercial solution.

INNOVATIVE SLATS

Every slat incorporates a 21mm accessory slot, with drop-in cutouts, for easy mounting of all kinds of accessories and carriers. Plus, the slat's width is designed for compatibility with Yakima clamp-type mounts. Mounts directly to legs providing the lowest height possible, no roof bars required.

EAST-WEST SLATS

Our Platform's slats run across the vehicle ("east-west"), just like normal roof racks do. This provides greater flexibility when choosing accessories, more tie down options and better load distribution.

WHISPBAR . . . design and performance winner!

The WORLD'S FINEST RACK SYSTEM designed for auto enthusiasts unwilling to compromise their pursuit of design and performance.

Sleek and seamless design that enhances the appearance of any vehicle type.

The Whispbar system is engineered for the least possible wind noise, drag and to deliver superior performance.

**Now available in
Silver or Black cross bars**
